Description

2026 Chaparral 21 SSi

Everything that has made Chaparral's renowned SSi Series a standout on the water is taken to the next level in the impressive **21 SSi**. Larger, more refined, and packed with thoughtful features, this model perfectly balances sporty performance with family-friendly versatility.

The 21 SSi's sleek styling immediately turns heads, but its appeal goes far beyond looks. True to Chaparral's DNA, it features premium stainless steel hardware, durable composite seat bases, an advanced cockpit drainage system, an Extended V-Plane running surface for enhanced performance, and a molded fiberglass dash for a clean, high-quality finish.

Onboard, comfort and practicality shine. The spacious bow offers wraparound seat backs for added relaxation, while a forward anchor locker keeps equipment neatly stored. With generous seating and a well-designed layout, the 21 SSi ensures there's room for everyone to enjoy a confident, smooth, and stylish day on the water.

No Compromise

Framed by an all-new helm design with a custom hand-stitched brow, the integrated **Simrad GO7 touchscreen display** delivers everything you need for a confident and informed day on the water. This intuitive all-in-one system provides real-time engine data, depth sounder functionality, GPS chartplotting, and full stereo control — all at your fingertips.

Seamlessly blending advanced technology with refined craftsmanship, the helm is designed for both performance and ease of use, ensuring safe navigation without sacrificing style.

Prioritise Comfort

The 21 SSi helm station is designed to deliver a level of quality and refinement that sets it apart. Featuring a glare-resistant fibreglass dash for improved visibility and ultra-comfort premium bucket seats, every detail has been carefully considered to enhance your time on the water.

Ergonomically designed and beautifully finished, the helm ensures effortless control while keeping you relaxed and supported — elevating every journey, from leisurely cruises to high-performance runs.

Extended V-Plane Difference

Low Speed Stability

Our hull design utilizes an extended running surface, allowing the "v-plane" to continue aft of the transom. This creates superior stability under nearly all driving conditions.

Efficient Fuel Economy

Less time at the pump means more time in the water and more money for bait. The hydro-lift provides a quick plane time, creating one of the most fuel efficient boats in their class.

Feather Soft Ride

A fishing trip feels like a day cruise when you're out on a Chaparral. Engineered by the best for the worst of conditions, you will feel the difference that hydro-lift provides.

Precise Cornering Agility

The extended running surface coupled with the tight aft hull corners delivers everything you need when you're taking sharp turns. These hulls drive like a luxury automobile.

Dry Riding Freeboard

Enjoy dry comfort aboard any Chaparral due to our high freeboard. Feel secure in the deep cockpits. You'll be amazed at the size, all while maintaining a sleek profile.

- 5-Year Premier Level Limited Component Warranty
- Automatic Bilge Pump
- Battery On/Off Switch
- Built-In Cooler (70 Quart) Under Rear Bench Seat
- Deep Freeboard
- Extended V-Plane Hull
- Full Complement of Color Selections - Standard
