Description

Finnmaster T7 Day Cruiser - 2027

Welcome to the future of day cruiser boat ownership! The Finnmaster T7 shows the way with its streamlined hull and the innovative LED docking lights on the bow. The Finnmaster T7 is totally unique, the perfect meeting between modern top design and practical details. We have included everything here, from a sporty appearance with speedy character to cosy comfort for all the family. This means that, thanks to our Smart Design concept, we have made it possible for all of the family to relax together in the cockpit either at the teak table or on the sun bed, which is easy to convert when it is as hot as it gets during the day. There is also plenty of room to spend the night in the bow, which features a large double bed and a toilet.

Starting Package comes fitted with a Yamaha F200, see below for more engine options:

Yamaha F200 - F250

For Trailer options please call us as we supply Full UK road legal trailers and offer launching trailers also.
