Description

Kawasaki Jet Ski® Ultra 310LXS – Supercharged Performance with Advanced Technology

Experience the ultimate combination of power, innovation, and premium comfort with the **Kawasaki Jet Ski® Ultra 310LXS**. As part of the flagship Ultra 310 range, the 310LXS delivers exceptional supercharged performance alongside advanced rider technology and refined styling.

Fitted with a **supercharger and intercooler**, the **liquid-cooled 1,498 cm³ in-line 4-cylinder marine engine** produces up to **310 horsepower**, delivering explosive acceleration, strong mid-range response, and impressive top-end speed. Designed for offshore confidence, the advanced hull enhances stability, handling, and control in a wide range of water conditions.

The Ultra 310LXS is equipped with class-leading features including:

- **KSRD (Kawasaki Smart Reverse with Deceleration)** for enhanced low-speed control
- **Rearview camera system** for improved visibility and docking confidence
- **Ultra Deck** rear platform for added versatility and social space
- Large touchscreen digital display with intuitive controls
- Intelligent ride modes and electronic management systems
- Premium ergonomic seating for superior comfort

- Generous onboard storage
- Aggressive, modern styling

Designed for riders who demand both performance and refinement, the Ultra 310LXS blends thrilling speed with advanced technology and everyday practicality — creating one of the most complete high-performance personal watercraft available today.

Built by Kawasaki, the Ultra 310LXS continues the legacy of the original Jet Ski brand, setting the benchmark for innovation, power, and on-water excitement.

Additional Options:

Vacu-Hold Cover Jet Ski Ultra 310LX / 310LX-S £381,90
