DRIVABILITY LIKE NO OTHER

The Saxdor 320 GTC is a blend of the GTO and GTR, with the same refined, economic and performance-oriented hull design. A low center of gravity, low weight, sharp entry, and a twin stepped hull create a unique driving experience in all kinds of seas and weathers across the world.

The spacious wheelhouse comfortably fits up to 6 people.

The Saxdor 320 GTC comes with three Mercury engine options, in the range of 300 hp to 700 hp. You can either choose the one-engine option with a competitive price and low fuel consumption for a comfortable driving experience, or you can choose the twin-engine option 2 x 225 hp or 2 x 300 hp 2 x 350hp the "Grand Tourismos" of the seas.

FREEDOM TO MOVE

Saxdor 320 GTC changes the game of onboard accessibility. With its unique concept of a full beam spacious wheelhouse with easy access to the walk-around bow, moving around onboard a powerboat has never been this easy. Saxdor believes in the luxury of unused space.

LIVING ON BOARD

Everything has been considered when it comes to living onboard.

With a **large and spacious wheelhouse** people can easily walk through the wide corridor while you can simultaneously prepare delicious food and drinks for your family and friends. Silence is golden – the wheelhouse can be **sound isolated** with a floating floor, specifically designed for the Saxdor 320 GTC model.

The stylish wetbar module can be equipped with a sink and a stove. There is even space for two fridges, the spacious dinette fits up to five people and together with the aft deck table and sofa allows up to 8 people to dine. The dinette is easily changed with an electric table to make a bed for two people.

The big canvas sunroof is electrically operated, which makes it easy and smooth to control while driving. Two large opening side windows on both sides are optional.

The cockpit is well designed with excellent ergonomics and the driver-focused helm station is

equipped with the latest SIMRAD navigational instruments and features a wireless charger platform for easy smartphone charging.

The lower deck is bursting with natural light thanks to the two big Lewmar hatches in the cabin roof. The hatches can be equipped with a sunshade and a mosquito net. The large and comfortable bed can be equipped with an ergonomic mattress base. The spacious toilet in the lower deck can be closed with a smart folding door.

The access to the **foredeck** features deep and safe walkways via the door at the front end of the cabin. At the foredeck you have a double sun pad. Access to the **aft deck** from the wheelhouse is easy through a big sliding glass door. The aft deck is a large open area that can be furnished with a sofa and large table.

Enjoy your own beach house with electric folding terraces on both sides of the aft deck!
